### About Me

---

Dedicated and detail-oriented Musician, Performer and Music Producer with 20 years of experience.

I have committed myself to develop my interest in music and to become a musician since childhood. I started playing piano and guitar when I was in primary school. Aside from enjoying the solo moment, I prefer to play with the members of the orchestra.

Music is something I feel very passionate about, having come from a extremely musical family, music has always been a prominent part of my life. My experience in various areas of the industry has fed this passion and I am very keen to strive towards a career in this very area.
